Sub: Report on **Technical training Program on C language and DBMS** for final year (2017 – 2021 batch) Students-Reg.

The Training and Placement Cell of our College is organized a Technical Training program on C language and DBMS for the final year students of all departments.

The Objective of the program is to equip our students with the required Technical skills in C Language and DBMS. The duration of the program is 5 days. The program is conducted by our internal trainers.

Topics Covered:

- Refresh of C, C++, OOPS
- Concepts of learning
- Simple programming
- Debugging
- Basics of Data structures
- Arrays and Linked lists
- Sorting
- Stacks and Qieues
- Trees
- Searching
- sorting
- Hashing Techniques
- Concepts of DBMS

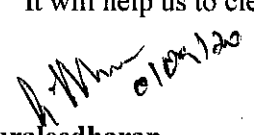

Training session includes theoretical concepts with necessary level of programming sessions and also we did technical mock interviews part of this program.

Due to this pandemic condition we have conducted this training program in online mode.

We have conducted this event from 18th August to 23rd August 2020 (15 hrs) through online Google meet and around 550 students were benefited out of this program.

The student feedback says:

1. It was really helpful to learn the fundamentals and advanced concepts in C language and DBMS with hands on coding practice.
2. The training session gives more confident to meet the industry expectations
3. We are expecting more of hands on sessions in future
4. It will help us to clear the technical test and technical interview in actual placements

Conclusion:

We observed the following points:

1. Due Pandemic we offered the complete program in online mode. It provides an opportunity and sets it own challenges ie.
2. Students are not used to online training program and attending the complete session through online is difficult maintain the interaction during the sessions.
3. They had connectivity issues and power problems during the sessions.
4. Few of our students used mobile phones for these session and their learning is limited by the devices
5. They find it difficult to attend long hours of online classes
6. We observed that student's devices are connected with session but their connectivity with the devices are missed.
7. Trainers are also not used to online session and their comforts for throughout a day is challenging.
8. We find it difficult to the contact the students during the online classes. Most of the time the Response for our call is negative.
9. Watching computer screen for long hours is challenging for our students.
10. Self motivation is very much required for quick learning in online platform.
