UNDERTAKING FOR IMPLEMENTATION OF EXAMINATION REFORMS

TO WHOMSOEVER IT MAY CONCERN

This is to inform that Sri Venkateswara College of Engineering (SVCE) (AICTE PID-1-2492131) have implemented the various aspects of Examination reforms prescribed by All India Council for Technical Education (AICTE).

The details of reforms implemented by SVCE are as follows

❖ **Adaptation of Outcome-Based Education Framework**

Being an autonomous Institution, we have successfully adopted the OBE framework for our curriculum design, delivery and assessment. By the way of adopting OBE framework, we are able to connect the examination questions/assessment tools to the program outcomes. The implementation helps us for proper mapping between program outcomes and assessment tools led to the accurate and reliable measurement of attainment of outcomes by the students.

❖ **Importance of Higher-order Abilities and Professional Skills**

The steps are taken to test higher level skills viz. ability to apply knowledge, solve complex problems, analyse, synthesise and design. Also We are planning to include the other higher order professional skills like the ability to communicate, work in teams, lifelong learning has become important elements for employability of the graduates. It is informed that We are giving an appropriate weightage to the assessment of these higher-level skills and professional competencies.

It is assured that, the AICTE examination reforms would be implemented in a full-fledged manner in a due course of time.
