

SRI VENKATESWARA COLLEGE OF ENGINEERING
An Autonomous Institution-Affiliated to Anna University
Pennalur, Sriperumbudur 602 105

DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

Webinar on Developing Mobile Applications using Xamarin

By

Mr. Vigneshwaran M
Software Developer
ZOHO, Chennai.

Registration Link : <https://forms.gle/CQfMM43AgCkdkdDA8>

Date : 30/08/2020

Time : 10.00AM - 11.30AM

Convenor

Dr. R. Anitha

Prof & Head /CSE

Co-ordinators

Ms. R. Iyswarya AP/CSE

Ms. S. Poorani AP/CSE

Ms. S.U. Muthunagai AP/CSE

Mr. B. Praveenkumar AP/CSE

14/09/2020

SRI VENKATESWARA COLLEGE OF ENGINEERING
An Autonomous Institution -Affiliated to Anna University
Pennalur, Sriperumbudur – 602117

DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

Webinar on Developing Mobile Applications using Xamarin

AGENDA

Date & Time: 30/08/2020 – 10.00AM - 11.30AM

- Introduction about Mobile Applications
- Prerequisites
- Why Xamarin-Xamarin forms(MS Tool)
- Layout available in Xamarin
- Live session - Demo about application development using Xamarin
- Q&A session

Contents

1. Invitation
2. Agenda
3. Link Details
4. Registration Details
5. Speaker Profile
6. Report of the Webinar on “Developing Mobile Applications Using Xamarin”
7. Feedback from Participants
8. Sample Certificate

Link Details

Registration

Speaker Profile

Mr. M. Vigneshwaran, Alumni of our college completed B.E in 2017. Got placed in Lennox Pvt Ltd. During his college days he was actively participated in various HACKATHON and won third place in SYMANTEC's Hackathon @ABACUS15 for the theme- Cloud Storage efficiency in 2015.He also won third prize in XOME's Debugging Contest @ABACUS15 in 2015.He gone for Final round in ARM Student Design contest organized by ACCS in 2016.

He always take ridiculous effort towards designing the project one amidst such is IoT based project to efficiently schedule garbage collection trucks in the city. He exposed this idea at SVCE INNOVATES and rewarded for the same in 2015.He started his career in Lennox as a Trainee for Mobile application development (using Xamarin) and he developed mobile application for various projects. Due to his exemplary performance, he was upgraded to Associate Engineer for Mobile Application Development in short span of time.a

He is stuffed with assorted skills like XAMARIN, C#, JAVA, NET, AJAX, JQUERY, ANGULAR JS, ANDROID etc., He also has very good experience in tools like VISUAL STUDIO CODE, GITHUB, XCODE, AZURE etc.,His coding passion has not end with Lennox and also prompts him to bring startup for developing softwares.

He runs a firm in the name of CAMPUS AVENUE with his friends Abinash and sriniketh for developing softwares and mobile application by bagging title Chief Technical Officer from 2019 and currently he is working as software Developer with ZOHO Corp.

Developing Mobile Applications using Xamarin

The Department of Computer Science and Engineering, Sri Venkateswara College of Engineering conducted a webinar on developing mobile application using Xamarin on 30th August 2020 in online mode. The guest speaker was Mr. M. Vigneshwaran Software Developer, Zoho, Chennai.

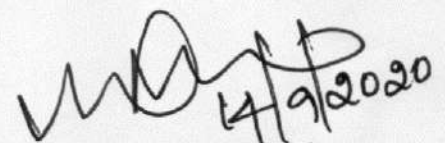

The Session started with a introduction about the speaker and importance of technologies evolved in mobile applications. The Mobile app development is rapidly growing form in retail, telecommunications and e-commerce to insurance, healthcare and government, organizations across industries must meet user expectations for real-time, convenient ways to conduct transactions and access information. Today, mobile devices—and the mobile applications that unlock their value—are the most popular way for people and businesses to connect to the internet. To stay relevant, responsive and successful, organizations need to develop the mobile applications that their customers, partners and employees demand.

He also discussed about prerequisite on Xamarin form(MS-tool) it is an open source mobile UI framework from Microsoft for building iOS, Android, & Windows apps with .NET from a single shared codebase. Whether you want a consistent look across platforms or prefer native look and feel, Xamarin forms will get you up and running in no time. Xamarin forms is an open-source UI framework. Xamarin forms allows developers to build Xamarin.Android, Xamarin.iOS, and Windows applications from a single shared codebase.

Xamarin forms allows developers to create user interfaces in XAML with code-behind in C#. These interfaces are rendered as performant native controls on each platform. He also give a live demo about mobile application development using Xamarin, he also informed about the layout tools and forms used electively apply custom renderers to the UI, resulting in an application with a consistent look and feel across iOS and Android.

He also discussed about Evolving a cross-platform UI framework for .NET- Xamarin offers an alternative to WinUI for cross-platform development. Its cross-platform strategy is based on a mix of XAML support for native controls for both iOS and Android alongside its own cross-platform Xamarin Forms. Xamarin Forms is an MVVM (model-view-viewmodel) development platform in its own right, with its own control look and feel based on Android's Material Design language. Xamarin Forms gives iOS and Android apps a consistent look and feel while still giving them access to native features and services.

The session ended up with Question and answers and feedback from the participants.

Dr.R.Anitha
