Profile of the Chief Guest

Mrs.Prithyukshaa Ravi, SVCE alumna who graduated from the CSE Department in the year 2007. She completed her master's from Cranfield University, with a specialization in Management and Information Systems.

Mrs. Prithyukshaa Ravi is working as a senior consultant at Capgemini Invent, London. She has over 12 years of work experience spanning across diverse functional areas like sales enablement, product ownership and management, business analysis and requirement gathering. She started her career at Tata Consultancy Services, Chennai. During her career progress, she played a various role as Business Analyst at TCS, Business Architect at Digital transformation, Bought By Many London, United Kingdom and Business Analysis Manager, The ai Corporation, Guildford, United Kingdom. She has a solid track record of developing and successfully managing key process change initiatives in complex and challenging environments.

She cares deeply about diversity in technology, and volunteer her time to promote Science, Technology, Engineering & Maths (STEM) in schools. She mentors students, especially girls, to inspire them to take up STEM careers. She is an Enterprise adviser working with a school in Islington, London to help them devise their curriculum and supporting on their careers programme. She is a passionate speaker usually talk about being women in technology and career progression.

She received the "Star Performer - on the Spot Award" in the year 2013 for her outstanding contribution for the Hartford Account. She was also part of a four-member team which conceived and shaped the idea "Med-Box" which eventually got selected to zone finals of the Tata business leadership awards 2010. She is a STEM Ambassador from Dec 2018 onwards, And an Enterprise Advisor for London Enterprise Adviser Network (LEAN)

Reflection Report of Webinar on "Women in Technology"

The Department of Computer Science and Engineering, Sri Venkateswara College of Engineering has organized a Webinar on "Women in Technology" on 10th September 2020. The programme was conducted by the Department of CSE in association with ACM Women's Chapter. The guest speaker for the programme was Mrs.Prithyukshaa Ravi, Senior Consultant at Capgemini Invent, London. The event started by a welcome address and Introduction of chief guest by Dr. R. Anitha, HoD/CSE.

The objective of the programme was to instill confidence on how to be successful in career and how to groom own self in the field of technology. The chief guest started her discussion focusing on work progression and built her conversation about re-thinking on women in technology. She gave an insight on her role as a mentor in STEM projects for school students and making them job ready. She shared her professional experience on being a coder, how job in technology demands the skill on team work and learn on the job while doing.

She insisted the significance of choosing a mentor in their profession as a support system. She also motivated the participants to being themselves, cheer leaders and branding. She talked how optimistically the women should handle the bias in the tech world and how to draw opportunities in their career. She gave an inspirational talk on how to bring work-life balance. Her talk has created awareness on Employability skills, Education effectiveness of Science Technology, Engineering and Maths(STEM) to the students. The programme came to an end with a vote of thanks.
