Report on Webinar: “Ion Exchange Chromatographic Separations for Enrichment of Boron Isotopes”

DATE: 09th January, 2018

TIME: 10.00 AM

OBJECTIVES:

The main objective of the webinar was to understand the Ion Exchange Chromatographic Separations. The webinar also focused on learning about the Separations for Enrichment of Boron Isotopes using Ion Exchange Chromatography.

ABOUT THE PROGRAM:

A webinar on “Ion Exchange Chromatographic Separations for Enrichment of Boron Isotopes” was organized by faculty and student members of department of chemical engineering in association with IChE - SVCE Student Chapter Chennai on 09th January, 2018 in Video Hall.

The programme started with the Tamizhthai vazhthu followed by the introductory note about the speaker. Then the session was handed over to the speaker, Mr. R. NAGARAJ, Scientific Officer, Indira Gandhi Centre for Atomic Research, Kalpakkam.

The speaker started his talk on how to excel in an industry and how important it is to learn about the organization and the industry one works in. He also talked about the Ion Exchange Chromatographic Separations for Enrichment of Boron Isotopes in detail. He also insisted on networking with others in the industry. He asked us to know the right business language and how to translate ideas into marketable applications.

Then, the platform was opened for question and answer session. The speaker answered to all the queries raised by the participants. The session was ended with a vote of thanks.

BENEFITS:

The webinar helped the participants to understand the Ion Exchange Chromatographic Separations via interaction. It also helped participants to understand global trends and realities, and the industry in general.
