## YRC-SVCE UNIT

### FIRST AID TRAINING PROGRAMME

The day 24<sup>th</sup> March, 2021 was one of the golden days in the history of YRC-SVCE. It was a fine forenoon session wherein the students were brisk enough and enthusiastic to learn something new. Pulavar.R.Manickam, District Secretary- IRCS, Chengalpattu District, gave a very important lecture with the practical sessions to our students on the topic 'Lessons to be learnt during the life time by every human'. The major topics on the lecture session covered are first aid, safety and recovery. He gave a brief idea about first aid for accidents, fracture care and counselling on prevention of suicide. Students were well trained with CPR techniques which will be far helpful to treat people who are suffered from sudden risk of heart disease.
