Dear Madam

Thank you for inviting me to your college and I should say I am completely impressed with the hospitality shown and the devotion of the students who had assembled. I should thank the team for arranging the right kind of students, the session was very interactive and I was happy to be associated with students.

I am sure with your leadership and guidance, the students would be able to think out of the box and propose various solutions for the changing market. It would be nice to have some images shared to file it in my portfolio. I would be more than happy to assist next time for final year students too.

I am also open to the idea of partnering with your innovations team and think of a strategy to commercialise the innovations.

Once again I thank you and Mr Sukumar for arranging the logistics.

Good luck

Madhu
