## REPORT

### WEBINAR ON REGRESSION ANALYSIS IN PYTHON

**Date:** 08.06.2020    **Time:** 11.00 am to 12.00 pm

**Resource Person :** Mr. Aditya Ram  
Data Analyst, Little More Innovation Lab

#### Objectives:

- To understand correlation and regression model.
- To develop a deeper understanding of the generalized linear model.
- Diagnose and apply linear model to real time problems.
- To identify the situation where linear regression is applicable..

#### About the programme:

The Department of Information Technology together with IT Alumni Association of SVCE conducted a webinar on regression analysis in python on June 8<sup>th</sup>, 2020. Dr. V.Vidhya, HoD/INT, Students and Faculty members of SVCE and other colleges participated in the webinar. The webinar Coordinator Ms.R.Saktheeswari, AP/INT welcomed all the participants. The introductory speech about the areas of expertise of the speaker was rendered by Mr.K.Suresh, AP/INT. The speaker of the webinar was Mr.Aditya Ram, Data Analyst, Little More Innovation Lab.

The webinar was an overview of regression and its applications. The speaker focused on the basics of linear regression model in the session. He briefed how to handle real data for error detection and correction with the generalized linear model. He moved on to working of linear model generalizations to have a better understanding of the topic. His talk on regression analysis helped the students to gain familiarity with various range of techniques and methods through theoretical and applied readings. The examples mentioned were relatable with real world, it was easy for the participants to ingrain the facts and ideas. The examples mentioned were relatable with real world, it was easy for the participants to ingrain the facts and ideas. Overall the session was insightful and useful for the participants.

The webinar came to an end with the Vote of Thanks by Mr. V.Ranjith, AP/INT. Dr. V.Vidhya, HoD/INT thanked the speaker for making an excellent presentation and all the participants for their active participation.

## Benefits:

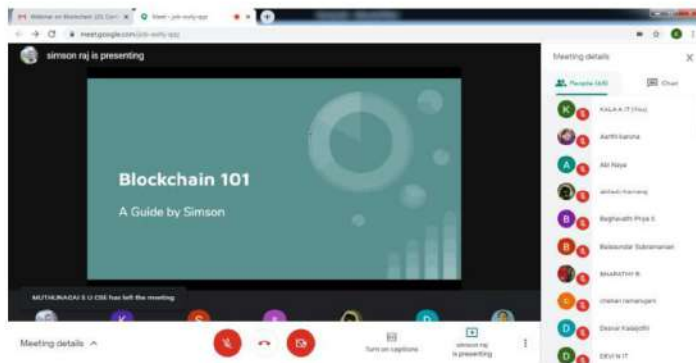

- Sound understanding of various aspects of the blockchain.
- Knowledge on various industries which uses blockchain.
- Ability to make informed decisions about strategic business.

## Participant List:

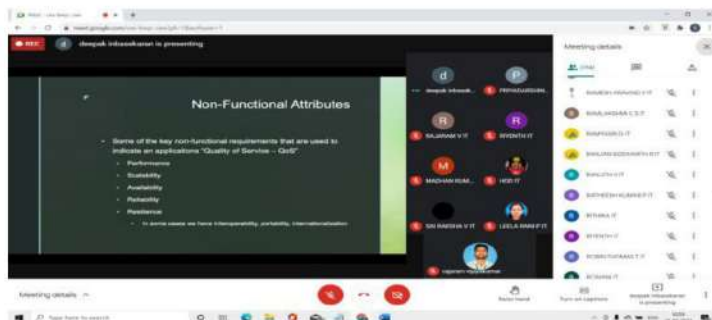

Total Number of participants - 79

- Number of students
  - Internal – 61
  - External-6
- Number of Faculty
