Invite for Online Webinar on "Introduction to Bagging-An understanding of Random Forest"

1 message

Jerusha S <jerusha@svce.ac.in>
To: HOD IT <hodit@svce.ac.in>

Sat, Jul 11, 2020 at 12:21 PM

Dear Mam,
Kindly send this mail to this id.

abiram.vyas@mu-sigma.com

Dear Sir,

It's my pleasure to invite you for the **Online Webinar on "Introduction to Bagging - An understanding of Random Forest"** on 11th JULY 2020.

We hope our students and faculty members will benefit from your session.

Thank you very much for your graceful acceptance.

Herewith I have attached Webinar Brochure for your reference.

--

Thanks & Regards
Jerusha S
Assistant Professor

**REPORT ON INTRODUCTION TO BAGGING – AN UNDERSTANDING OF
RANDOM FOREST
SPEAKER: MR. ABIRAM VYAS, DECISION SCIENTIST, MU SIGMA
[Alumnus, 2018 / INT]**

Date: 11/07/2020

Time: 4:30 PM to 5:30 PM

Objectives (Maximum 50 words):

- To understand the basics about Decision trees with real time examples.
- To understand the working concept of random forest.
- To provide in-depth practical knowledge on How to get started with random forest using PYTHON with real time examples.

About the programme(Min 500 words):

On 11th July 2020, Mr.Abiram Vyas, Decision Scientist, Mu Sigma [Alumnus, 2018 / INT] delivered his lecture on “Introduction to Bagging – An Understanding of Random Forest”. About 68 participants attended the webinar and the programme highlighted how the Random Forest algorithm works and how it will help in overcoming the limitations of decision trees. Dr.V.Vidhya, Head / INT gave an introductory talk emphasizing the importance of the webinar. Introduction about chief guest was given by Ms. S. Jerusha, AP/INT. The speaker started the session with a brief introduction about himself and continued the session by delivering some basics concepts used in the technology relating with best suitable real life examples which are essential for the understanding of technology. He projected a clear understanding about decision trees, random forest,

working of random forest and also its advantages and disadvantages. The webinar focussed on the demonstration of random forest using python. The programme highlighted how to select features from the dataset to construct decision trees for the Random Forest with a real time example.

The students and faculty members were actively participated in the webinar and raised their views during the session. Feedback about the session was collected from all the participants to improve the sessions that will be conducted in the mere future.

The session came to an end. Finally, Ms. S. Aiswarya AP/INT delivered the vote of thanks.

Benefits (Maximum 50 words):

Participants were benefited and gained knowledge on,

1. Introduction to Decision trees and how the split is happening in decision trees with examples.
2. To learn in-depth about Random Forest and its applications, advantages and disadvantages.
3. How to get started on Random Forest in PYTHON with real time examples.

Prepared by Faculty Name, Designation & Dept.

Ms. S. JERUSHA, Assistant Prof. , Dept. of Information Technology, SVCE.

Ms.S. AISWARYA, Assistant Prof. , Dept. of Information Technology, SVCE.
