SRI VENKATESWARA COLLEGE OF ENGINEERING

DEPARTMENT OF INFORMATION TECHNOLOGY

Report

Workshop Details:

1. Resource Person :Dr. S.Murugan
2. Target Audience : I,II,III and IV year IT
3. Venue : Online
4. Date & Time : 29th& 30th Nov 2021, 10 AM

Objectives:

- This workshop provides the basic understanding in the topic of Data Visualization using Tableau.
- It helps students to tell stories by curating data into a form, easier to understand, highlighting the trends and outliers.
- It provides good visualization, which helps students to tell a story by removing the noise from data and highlighting the useful information.

On 29th and 30th Nov 2021, 10 AM, Dr. S. Murugan M.E., PhD., Professor, Department of Computer Science and Engineering, School of Computing, Sathyabama Institute of Science and Technology delivered an Expert Talk on "**Data Visualization using Tableau**".

The Welcome Address was given by Dr. V. M. Sivagami, Associate Professor IT, SVCE followed by an Introduction of Chief Guest by Dr. S. Gopinath, Professor, Department of Mechanical Engineering, SVCE.

The Head of the Department Dr. V. Vidhya, Department of Information Technology, motivated the students by giving them a brief introduction about the importance of Tableau in Real time Projects. The Day 1 and Day 2 workshop lasted more than an hour. The Resource Person started the lecture with basics of data and tableau.

Day1

He first started his presentation in a Microsoft PowerPoint and presented a road map of Tableau by explaining the topic of data and charts. In the roadmap of tableau, it has three divisions like basics, dashboard and calculations. Basics and dashboard divisions are drag and drop divisions in Tableau, whereas calculations require a small amount of code.

Then, he explained the objective of learning Tableau with more relevant examples. He pointed out the outcome of this two day workshop. It is quite impressive. He mentioned that any language along with the mathematical concept can make up the best paper to publish. The mathematical concept like statistics or data Visualization and the presentation of content in any language makes the article stand apart.

Later, He explained a use case along with the visual presentation of that data. The visualization graph shows the correlation of received and completed process for every month in the year 2019. He listed out the Visualization process that includes extract, clean, explore, analyze and share.Visualizing the data helps to analyze the data.It helps to fetch the relevant information needed for the project or task to determine the outcome.

He started explaining the concepts of Analysis.Analysis starts with various questions like where it is applied? When it is used? etc.. There are two types of Analysis. It consists of Exploratory Analysis and Explanatory Analysis. In Exploratory Analysis, he pointed out the importance of Data and Figure, Data Distribution, Noteworthy, Point of Interest and Correlation.

In Explanatory Analysis, he listed out the major points that highlight the importance of focusing on explanation. He also listed out the Visual tools like Tableau, Power Bi, QlikView, Fusion Charts, High Charts, Data Wrapper, Sisense, Office, R and Python with relevant examples.

Day 2

The chief guest explained about dimensions in Tableau and its Characteristics. Dimensions cannot be aggregated and its discrete. It contains string values. It is visually represented in Blue color. He also explained the difference between Measure and Dimensions. Measure is aggregated, contains numeric values and continuous (Plotting Values). It is visually represented in Green color.

Later, He moved on to the topic of Tableau. He explained that Tableau is used in Data Visualization, Business Intelligence and Data Analytics. It comes with four different Versions Tableau Desktop (2021.3), Tableau public, Tableau Server and Tableau Public Server.

Later, He moved on to the topic of Tableau Worksheets and explained the three divisions Worksheet, Dashboard and Story. Worksheets include Single View, Calculations, Table, Charts, Map, Shelves, Legends and Data Pane.He pointed out the details of Tableau files in a Pictorial form.

He explained the components in tableau interface which makes students to understand easier and focus it. Then he moved to the hands on by working in Tableau Desktop Version.

In Tableau, he explained how to import data, measures, sets, groups, bins, joins, trend lines, styles and formatting, operators, functions, calculations, plot graphs, word cloud, level of detail, story, dashboard, filters and pages. It gives students hands-on work experience on tableau. It lasted for more than an hour.

The session came to an end by delivering the vote of thanks by Ms. A. Kala AP/IT.

Outcomes:

- To make the faculty members and students to understand the concepts of Data Visualization.
- To get exposure on incorporating contextual clues with shapes and designs, use predictable patterns for layouts and choose the right charts and graphs for the job.
- To give a real time exposure on how to Tell data stories quickly with clear color clues and they will be able to handle data retrieving, creation, organization and visualization and become an independent analyst in the role of a Tableau Prep Builder, Table Prep Conductor and so on.

PROFILE OF THE CHIEF GUEST

Dr. S. Murugan

Professor

- Dr. S. Murugan is a Professor in the Department of Computer Science and Engineering in Sathyabama Institute of Science and Technology.
- He completed his M.E Computer Science with a University Rank. He also completed his Ph.D in 2013.
- He has 21 years of experience in teaching in R&D.
- He is a member of IEEE, IIE (iieng), ACM and CSI.
- He has 40+ Publications in the peer reviewed journals in three patterns and author of two books on Data Structures.
- He has been worked as a Head of the Department for the Department of Information Technology in the year 2014-2015 in Sathyabama Institute of Science and Technology.
- He has also been worked as a Head of the Department for the Department of Computer Science and Engineering in the year 2015-2018 in Sathyabama Institute of Science and Technology.
- He is a Leading Head in Software Development in Sathyabama Institute of Science and Technology from 2018.
- Currently, he is involved in Research Activities like Data Analytics, Image Processing and Machine Learning.

SRI VENKATESWARA COLLEGE OF ENGINEERING

DEPARTMENT OF INFORMATION TECHNOLOGY

26November 2021

To

Dr. S. Murugan

Professor, Department of Computer Science and Engineering

Sathyabama Institute of Science and Technology

Chennai

Dear Sir,

Subject: Invitation – Chief Guest for Online Workshop on "Data Visualization using Tableau"- reg.

At the outset, we would like to thank you for your graceful acceptance of our invitation to deliver Special Talk on "Data Visualization using Tableau" on 29th& 30th Nov 2021, 10 AM onwards.

Department of IT engages in several activities like Workshops, Expert Lectures, Symposia and Industrial visits aimed to benefit our students and faculty members. These activities equip them to sharpen their technical skills and create awareness & bonding among our students.

Department of IT looks forward to your presence amongst our faculty members and students for sharing your valuable thoughts and advice on the above topic which will definitely enrich their knowledge.

We thank you once again for accepting our invitation. We are eagerly awaiting for your interaction among our students and our faculty members with your expertise.

Thank you.

Yours sincerely,
(Dr. V. Vidhya)
HoD /Information Technology
SVCE.

FEEDBACK FROM THE SPEAKER - WORKSHOP

DEPARTMENT :INFORMATION TECHNOLOGY

Name of the Speaker	:	Dr S Murugan
Designation	:	Professor
Institution/University/Organisation:		Sathyabama Institute of Science and Technology (Deemed to be University)
Mobile / E-mail	:	9940217379 murugan.cse@sathyabama.ac.in
Title of the Lecture	:	Data Visualization using Tableau
Date	:	29.11.2021 and 30.11.2021
Time	:	10:00 a.m. to 12:00 Noon
Venue :		Online
Comments by the Speaker	:	Good session to handle.
Suggestions for improvement	:	Hands on session will be of more useful.
Signature of the Speaker	:	
Signature of Convener **Signature of Coordinator s** **Signature of HOD**
