Over view

The NSS programmes for the year 2017-18 are started in August 2017. The regular programmes are arranged, to provide personality development through community service and social transformation to the societal up gradation. As a part of above programmes various events are arranged and volunteers are made to participate. In addition, blood donation camps are arranged every year by NSS, and other social clubs to motivate the volunteers and students. As a routine programme, the National level events like Sadhbavana day & pledge, National Integration day & pledge, Independence and republic Days are followed. To attract the volunteers towards social responsibility in personal, social and cultural life many awareness programmes are arranged, through self management, involvement in the public oriented and Government events. Beside the regular activities, the annual special camp was organized in nearby villages of Sriperumbudur in every year, where student's participation aimed to the specific theme.

The villages, where we used to serve have no transport, poor drinking water facility, requirement of basic infra structures and inadequate number of public sanitation. Under this situation, we do service and expressed the importance of above to the villagers. We teach basic education in general and health education in particular in the village. Our student volunteers are motivated to work to fulfill the theme. To the Annual special camps the programmes are carefully identified and implemented with the help of Government and private sectors. The camp provides a practice of self management, self planning, belongingness and coordination to work in groups
