Dear Sir / Madam,

We record our deep sense of gratitude and thank you for providing the skills mapping training program on '**Advanced Electronic Devices and Systems**', to the students of the Departments of Electronics and Communication Engineering and Electrical and Electronics Engineering on 29-08-2017.

Your distinguished presence on the occasion has boosted the morale of our students. The training program has certainly enabled to reduce the gap between Education, Employment and Entrepreneurship skills.

We look forward your continued support for similar activities in future.

With Regards,

A Report on the
Training Program on "Advanced Electronic Devices and Systems"

A one day training Program on 'Advanced Electronic Devices and System' was organized on 29-08-2017 (Tuesday) by the department of Electronics and Communication Engineering, Sri Venkateswara College of Engineering.

The training Program was provided by M/s Springboards Skills Foundation, a nonprofit organization, which is providing training for skills mapping between Education, Employment, and Entrepreneurship. The training Program was coordinated by Dr. S. R. Malathi, Associate Professor, Department of ECE and by Dr. N. Nachiappan, Assistant Professor, Department of Applied Chemistry.

The objective of the training program was to provide the budding engineers of ECE and EEE (Second year students) to acquire skill-full education which is more appropriate for the development of this society. The intensive one day training program covered topics on 'Advanced Electronic Devices' and 'IC Fabrication and Testing', which are needed to handle semiconductor based devices and also electronic systems in regular application in Industry.

To highlight few, Ms. R. Kousalya, Assistant Professor, Department of ECE, SVCE, delivered a special lecture on 'Advanced Electronics Devices and Systems', which covered FET, MOSFET, CMOS semiconductor devices, their characteristics, applications and their significances. Mr. P. Balamurgan, Vice President, SPEL Semiconductor Limited, delivered a lecture on 'IC Fabrication and Testing', which gave the students an insight about the industrial environment for fabricating the FET, MOSFET, CMOS semiconductor devices. The physical touch and feel of the models on Wafers and Integrated Circuit Chips, which were circulated, gave the students an enthusiasm to learn more about the semiconductor devices. Mr. R. Ramamurthy, Vice Chairman, Springboards Council, touched upon topics like cloud computing, grid computing, cryptography, network security, etc. Mr. P J Srikanth, Member, Employability Enhancement Task Force, Springboards Council, encouraged the students to focus on Entrepreneurship, Application oriented research and importance of filing Patents.

The training program has certainly enabled to reduce the gap between Education, Employment and Entrepreneurship skills.
