Subject: Exclusive webinar on opportunities in construction management for final year students
To: kumuthar@svce.ac.in <kumuthar@svce.ac.in>

Dear Ma'm

I had a call with you just now. I am Dr.Mahesh, an assistant professor with National Institute of Construction Management & Research (NICMAR).

I am delighted to extend NICMAR's invitation to an exclusive webinar on "Recent Advancements and Career Opportunities in Construction Management Sector" for the final year students of Civil Engineering. In the current environment where final year Students of Civil Engineering are more inclined towards a career in the IT industry or E Commerce or as a consultant in an industry not related to their field of bachelors study, this webinar intends to sensitize the recent advancements and well-paying, profuse career opportunities in Construction Management. **The webinar is conducted free-of-cost and without any commitments.** E-Certificates will be provided by NICMAR to the students – after the webinar is complete.

We can schedule this exclusive webinar based on your convenience. As per the telephone conversation, I understand February 4th week may be a possible time for this webinar.

On confirmation of date and time, our systems analyst Mr.P.Sivakumar will share a webinar registration form wherein the students will need to register their interest. The MS Teams or Webex or Zoom or Google Meet link (whichever is convenient to you) will be shared a day before the webinar to the registered students. E-certificates will be provided to the students only who register and subsequently attend the webinar.

Regards

Dr.Mahesh Balasubramani, M.Tech & Ph.D (IIT Madras)

PROFILE OF THE SPEAKER

Dr. Mahesh Balasubramani, currently designated as the Assistant Professor in National Institute of Construction Management and Research (NICMAR), Hyderabad, India. He has around 3 years of experience as Project Manager in L&T Construction. He completed his PhD in Civil Engineering at IIT Madras.

Prof. Vishnu Namboodiri V, currently designated as the Assistant Professor in National Institute of Construction Management and Research (NICMAR), Hyderabad, India. His area of research interest is related to energy systems and their optimization for build environments. Prior to joining NICMAR, he has 4+ years of industrial experience in the energy field. In reference to his academic profile, currently, he is pursuing a Ph.D. in renewable energy at IIT Delhi. He contributed numerous publications in international journals in materials for energy applications.

BRIEF REPORT OF THE WEBINAR

Ms. R. Logeshwari (Final Year Student/Department of Civil Engineering) has delivered the welcome address and introduced the speaker Dr. Mahesh Balasubramani, Assistant Professor, NICMAR, Hyderabad & Prof. V. Vishnu Namboodiri, Assistant Professor, NICMAR, Hyderabad, to all the participants.

Dr. Mahesh Balasubramani welcomed the gathering and gave a brief overview on scope of civil, mechanical, electrical engineers in infrastructure projects. He stated the importance of being engineer and their opportunities in a developing country like India. The speaker highlighted that India expected to become the third largest construction market by 2022.

The speaker also highlighted the various projects like Metro Rail, Mall in Mumbai, Residential building, Solar plant which are undertaken currently across India. The speaker explained the various job profiles for civil engineering graduates which categorized into various departments like Safety department, Environmental department, Fire Protection department, planning department, contract department, billing department, structural engineering department etc., The speaker also explained the Challenges faced in Construction Industry and the advancements made in construction materials such as use of admixtures, LC3 cement, Alternative to sand. He briefed about the Nanotechnology in coating of steel structures, Prefabricated construction, 3D printing, Fire Protection System, Lean Management in construction.

Prof. V. Vishnu Namboodiri gave a brief overview on advancements made in Electrical projects in India. He highlighted the project “Smart Grid” and its advantages over conventional systems. Later explained about the advantages of Micro Grid in India. He later stated the advancements in Mechanical Projects like IIOT, Agile project management, Wind projects, solar projects. He also explained about the various opportunities for engineering graduate in various sectors like contract management, project finance management, business development, site administration, etc.

The speaker concluded the session and discussed on the queries from the participants.

The session was interactive, and the questions raised by the participants were answered by the speaker. The session ended with a vote of thanks delivered by Ms. R. Logeshwari, Final Year Student, Department of Civil Engineering. The participants also had appreciated the webinar.

Program Objectives

The objectives of the program are:

- To provide an opportunity to understand the scope and opportunities of civil engineering domain in construction management sector.
- To impart knowledge and awareness on technological advancements and various skills required for civil engineering graduate.

The following Program Outcomes (POs) and Program Specific Outcomes (PSOs) are addressed for the Webinar on “Opportunities for Civil, Mechanical and Electrical Engineers in Construction Management Sector”

Particulars	PO1	PO2	PO3	PO4	PO5	PO6	PO7	PO8	PO9	PO10	PO11	PO12	PSO1	PSO2
Opportunities for Civil, Mechanical and Electrical Engineers in Construction Management Sector	✓											✓	✓	

SNAPSHOTS OF THE WEBINAR

NICMAR

Pre-fabricated construction and 3D printing

- Pre-fabricated construction – water savings, self-curing
- Geopolymer concrete for 3D printing – workability, self-compaction
