Mr.M.Kishore is currently pursuing B.E. in Electronics and Communication Engineering in Sri Venkateswara College of Engineering. He is an enthusiastic competitive programmer, ML enthusiast and Flutter developer. He went on to build many apps through flutter such as SVCE Mobile, Uniform pro and has won many technical competitions. He has completed his internship for SmartRobos technologies and PALS-VLAB.

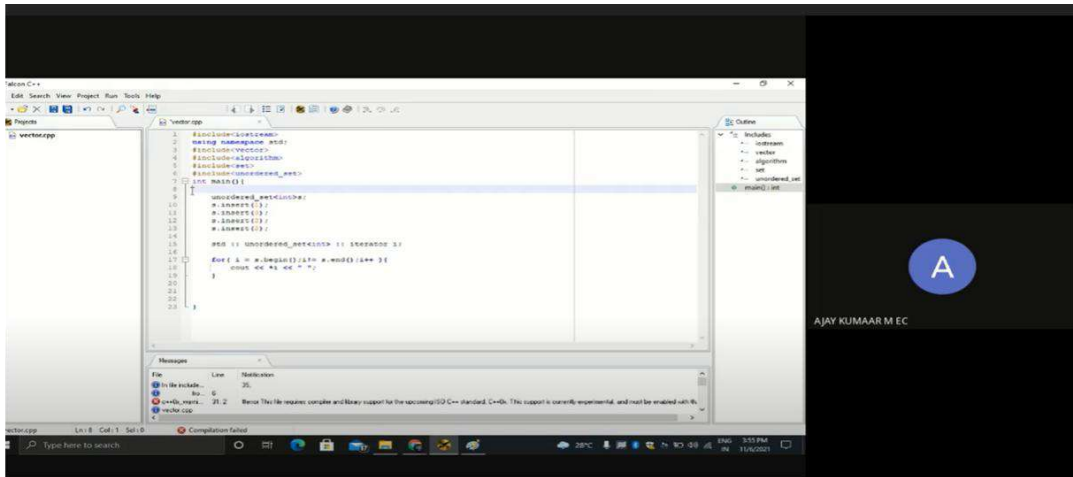

About the workshop:

The first session commenced at 10:00 AM on 06/11/2021 (Saturday). The participants were explained about the basics of C++ and were given a short introduction to some of the important coding platforms available. The topics covered in the first session included bit manipulation, loops, conditional statements, sets, unordered mapping, Linear Data Structures and Standard Template Libraries (STL) with real life applications.

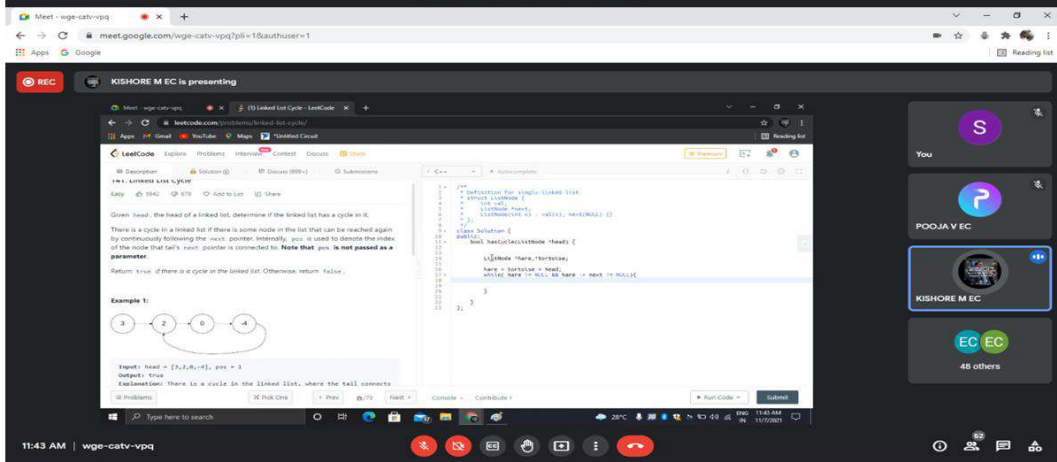

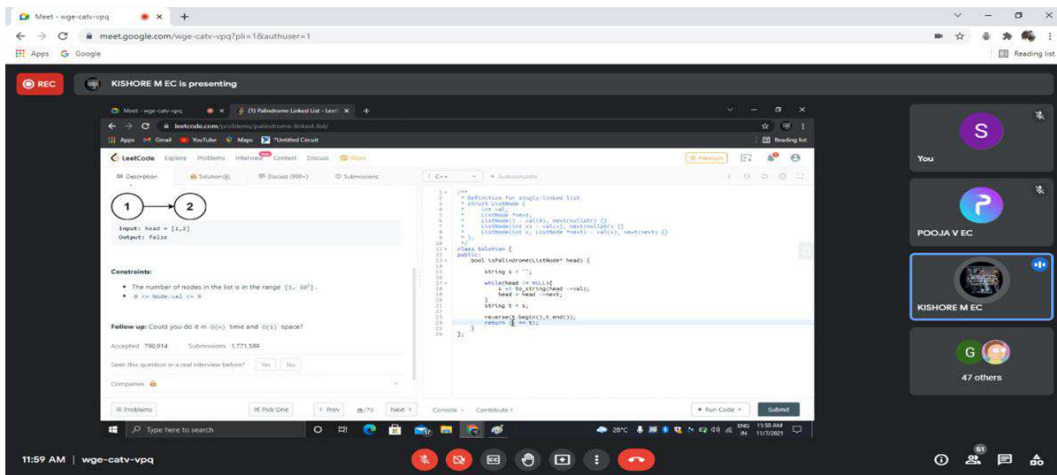

SNAPSHOTS OF THE FIRST SESSION

The second session commenced at 03:00 PM on 06/11/2021 (Saturday). The participants were given a clear insight of data structure implementation using arrays as well as pointers. A real time problem was solved and the participants were also given a chance to solve some problems. The participants were assigned with practice problems on the same. The topics for the second session included applications of vector arrays, linked lists, multisets, testing of STL in coding rounds of interviews and problems on top array and linked lists.

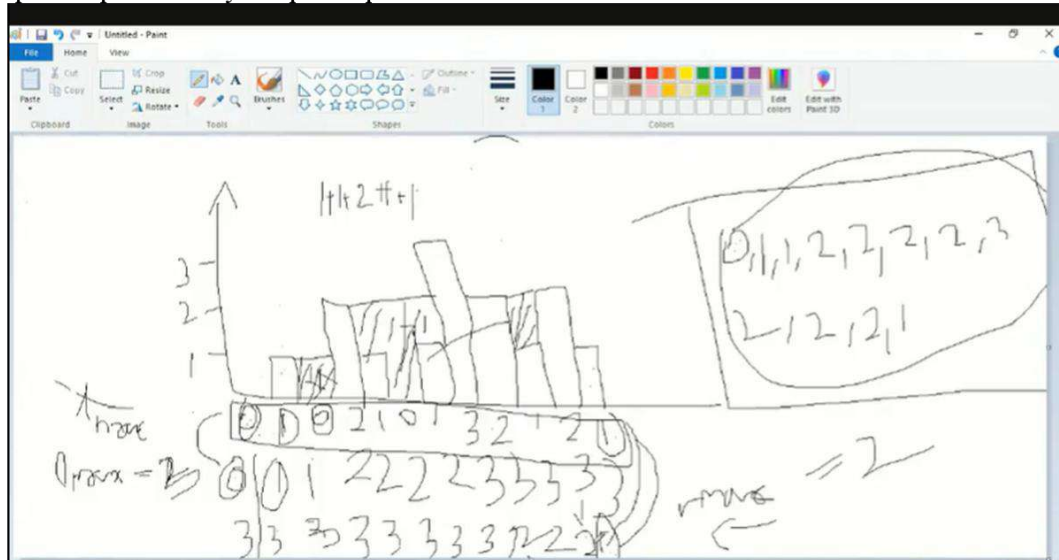

SNAPSHOT OF THE SECOND SESSION

The third session commenced at 10:00 AM on 07/11/2021 (Sunday). Implementation of the remaining data structures viz. stack and queue were thoroughly explained and the concept of dynamic programming was elaborately explored. The topics for the third session included Dynamic programming, Stack and Queue implementation and problems on the same, effective usage of Leetcode, Count and say programs, GitHub basics, Hare and Tortoise problem and String permutations.

SNAPSHOTS OF THE THIRD SESSION

The fourth session commenced at 03:00 PM on 07/11/2021 (Sunday). Students were given an awareness of the current industry expectations and an overview of building and writing a resume. Doubts regarding the assignment problems were clarified and the steps to earn an internship were discussed in detail.
