

**DEPARTMENT OF
ELECTRONICS AND COMMUNICATION ENGINEERING**

Presents

**THREE DAYS NATIONAL LEVEL WORKSHOP ON
"CENTROID OF ENGINEERING IN AI & ML"**

12/08

INTRODUCTION TO ML
9:30am to 11 am

13/08

**DEEP LEARNING IMPACT IN ENGINEERING
AND CASE STUDIES**
9:30am to 11 am

14/08

**SCOPE OF NLP IN ENGINEERING AND
CASE STUDIES**
9:30am to 11 am

SHANTHABABU PANDIAN

Cognizant Technology Solutions
[Manager – Projects]

CONVENOR:

Dr.S.Muthukumar, HOD, ECE

COORDINATORS:

Dr.R.Gayathri, Associate Professor, ECE

Mr.S P Sivagnana Subramanian, Assistant Professor, ECE

Mrs.Rajeswari Ramaraj, Assistant Professor, ECE

Mrs.S M Mehzabeen, Assistant Professor, ECE

12-08-2021 TO 14-08-2021

REGISTER @

PROFILE

Shanthababu has 17+ years of experience in Information Technology (IT). Almost 8+ yrs. as Data & Analytics Technical Delivery Management. Development/Enhancement/Scrum/Support management/ Release/ Environment/ ITIL Service Managements and Client interaction. People management, Project Financial / Operations management, and People management.

On top of this creating YouTube Channels, Writing Technical and Project Management related blogs. Data Science and Machine Learning course designer for Engineering college and Online Training and workshop on technical topics.

CONTACT

WEBSITE:

<https://www.linkedin.com/in/shanthababu-pandian-b2a9259/>

EMAIL:

pandian.shanthababu@gmail.com

HOBBIES

Listening to music
Watching and Playing cricket
Writing technology articles
Cooking

SHANTHABABU PANDIAN

Manager - Projects

EDUCATION

PG Program in Artificial Intelligence & Machine Learning

University of Texas, Austin

Post Graduate Certification in Data Science

IIT Guwahati (In-Progress)

Master of Science in Software Engineering

BITS Pilani

Master of Business Applications in Systems Specialization

Madurai Kamaraj University, Tamil Nadu

Master of Technology in Polymer Engineering, Insulation Specialization

Anna University, Chennai, Tamil Nadu

Bachelor of Engineering in Electronics and Communication

University of Madras, Chennai, Tamil Nadu

WORK EXPERIENCE

Cognizant Technology Solutions [Manager - Projects]

June 2004 to till date

SKILLS

Project Management

- Agile Delivery Management
- Data & Analytics Technical Delivery Management.
- Service Management ITIL

Technology

- Microsoft Technology - .Net, Microsoft SQL server
- MSBI (SSIS, SSRS), Tubule, PowerBI
- Data Science and Machine Learning
- Python, PySpark, PyTorch, Keras and TensorFlow
- BigData Eco Systems (HDFS, Sqoop, Flume, Hive and Spark ML)
- Azure - ADF, ADB, ADLS and others

Professional Certification

Management Certification

- Certified Scrum Master - Scrum Alliance
- Agile Scrum Master - EXIN
- ITIL - Foundation in ITSM

Technical Certification

- IBM Data Science Professional Certificate
- Certified Machine Learning Engineer - from Edureka
- Certified Data Scientist - from Edureka
- Azure DevOps - from Udemy
- Microsoft Azure Certification Training - Scientist - from Edureka
- Advanced Predictive Modelling using Python - from Edureka
- Microsoft Certified Database Administrator (MCDBA) for SQL Server
- Microsoft Certified Solution Developer (MCSO) for Microsoft .NET,

Accolades and Awards

- Idea Champion (2012) And Innovation Champion (2013)
- Awarded Best Innovation Champion Award 2012.
- Best Mentor Manager 2014

Registration Details Three days National Level Workshop on "Centroid of AI and ML"

Dr.R.Gayathri

Event Co-ordinator

Dr.S.Muthukumar

HOD-EC

SRI VENKATESWARA COLLEGE OF ENGINEERING

Department of Electronics and Communication Engineering

Three-day national level workshop on “Centroid of Engineering in AI and ML”

12th August 2021 to 14th August 2021.

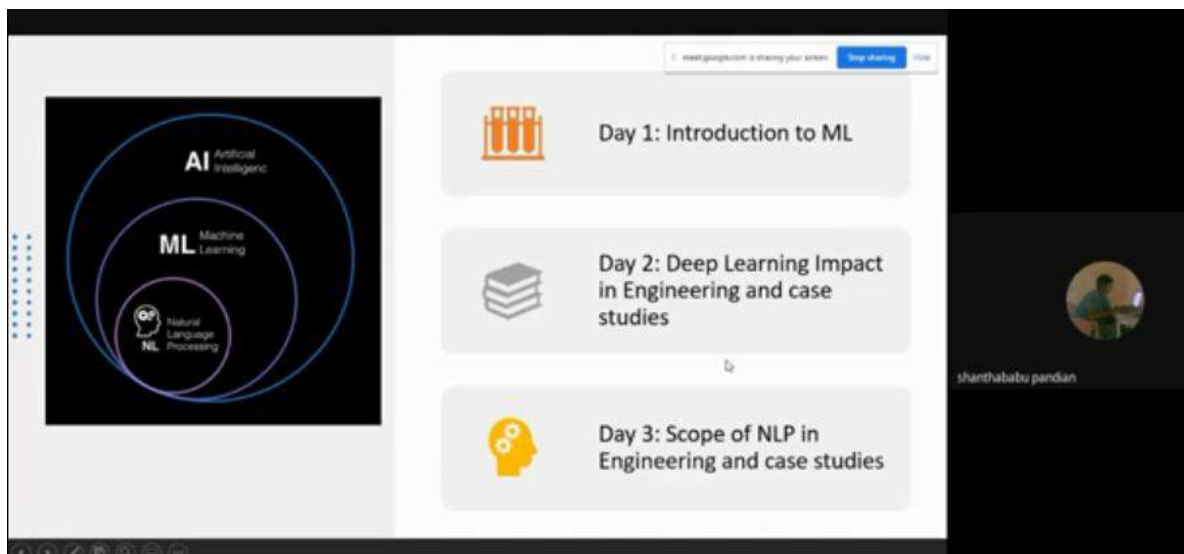

A Report

The Department of Electronics and Communication Engineering organized a Three-day national level workshop on “Centroid of Engineering in AI and ML” by Mr. Shanthababu Pandian, Cognizant Technology Solutions, Manager Projects. The Objective of the workshop is to cover the basics and advancements in machine learning to address all the levels of participants. The approaches of applying the concept of deep learning in various engineering disciplines and the future scope of NLP in engineering has been explored along with suitable case studies. He delivered an introductory talk on the significance of Artificial Intelligence and their Applications with various real time scenarios where optimisation plays a vital role.

Day 1 :Introduction to ML

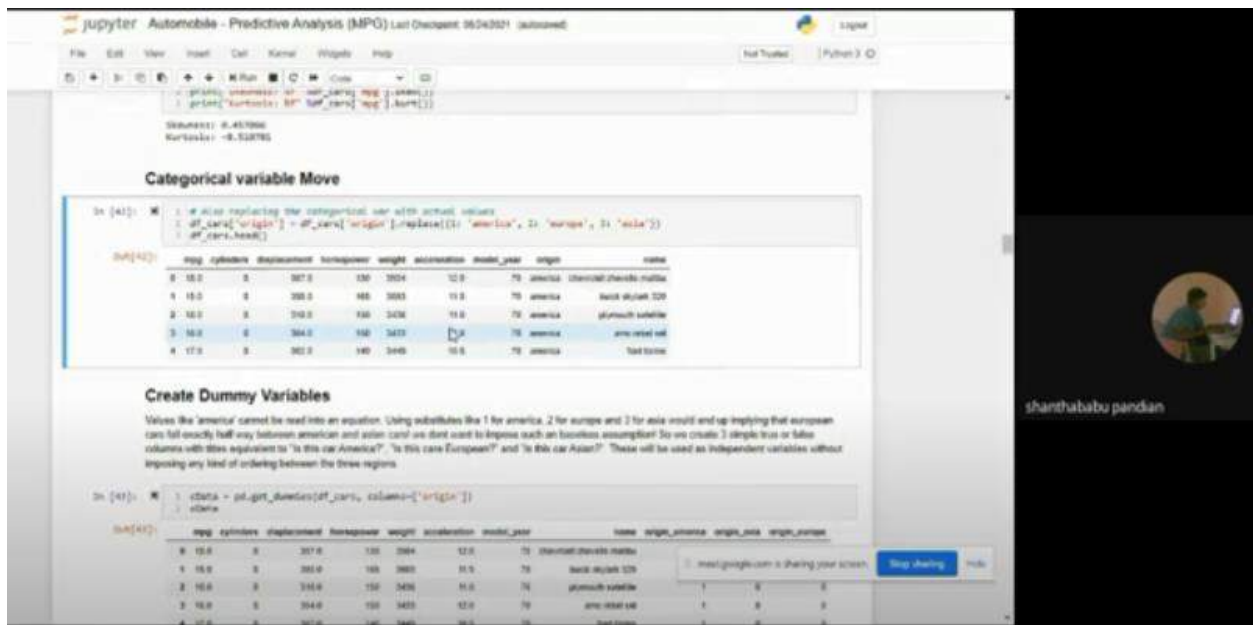

The speaker delivered the talk on Introduction to ML by addressing the continuing advances in computer processing speed and memory capacity, there are as yet no programs that can match human flexibility over wider domains or in tasks requiring much everyday knowledge. On the other hand, some programs have attained the performance levels of human experts and professionals in performing certain specific tasks, so that artificial intelligence in this limited sense is found in applications as diverse as medical diagnosis, computer search engines, and voice or handwriting recognition.

Day 2: Deep Learning Impact in Engineering and case studies :

Speaker delivered the Day 2 Lecture in Deep dive to deep learning scientists developing intelligent products and services at major companies and startups. When we entered the field, machine learning did not command headlines in daily newspapers. Our parents had no idea what machine learning was, let alone why we might prefer it to a career in medicine or law. Machine learning was a blue skies academic discipline whose industrial significance was limited to a narrow set of real-world applications, including speech recognition and computer vision. Moreover, many of these applications required so much domain knowledge that they were often regarded as entirely separate areas for which machine learning was

one small component. At that time, neural networks—the predecessors of the deep learning regarded as outmoded.

Day 3: Scope of NLP:

In just the past five years, deep learning has taken the world by surprise, driving rapid progress in such diverse fields as computer vision, natural language processing, automatic speech recognition, reinforcement learning, and biomedical informatics. Moreover, the success of deep learning on so many tasks of practical interest has even catalyzed developments in theoretical machine learning and statistics. With these advances in hand, we can now build cars that drive themselves with more autonomy than ever before (and less autonomy than some companies might have you believe), smart reply systems that automatically draft the most mundane emails, helping people dig out from oppressively large inboxes, and software agents that dominate the world's best humans at board games like Go, a feat once thought to be decades away.

Data Science

"Torture the data, and it will confess to anything."
- Ronald Coase, Economics, Nobel Prize

Data + Science = Data Science

Data Science is the field of study that combines domain expertise, programming skills, and knowledge of mathematics and statistics to extract meaningful insights from data.

- Discover hidden patterns from the raw data

Prepared By : Shanthababu Pandian - Sr. Data & Analytics Technical Delivery Manager: Data Scientist | Machine Learning Engg | Azure Data Engg

The Workshop was conducted successfully with 138 participants from various academic institutions. The programme provided an insight to the recent updates and current technologies practised in the industry. which was well handled by the industrial expert. The participants provided a positive feedback about the sessions handled by the industrial expert. The practical sessions that demonstrated the use of MATLAB and Python were also helpful to the participants in understanding the applications of Centroid of AI and ML. Dr.R.Gayathri ,Associate Professor delievered the vote of thanks .

EVENT CO-ORDINATORS

Dr.R.GAYATHRI,ASSOCIATE PROFESSOR/ECE

Mr.S.P.SIVAGNANA SUBRAMANIAN,AP/ECE

Ms.RAJESWARI RAMARAJ,AP/ECE

Ms.S.M.MEHZABEEN,AP/ECE

Dr.S.Muthukumar
HOD-EC

Dr.S.MUTHUKUMAR

Head of the Department, ECE
