Webinar on  
Motivation and Career Guidance

A webinar on the topic " **Motivation and Career Guidance**" was arranged for the all the students and faculty across all departments of the institution. The resource person being Dr. Srinivasa Chakravarthy, Professor, Department of Biotechnology, IIT-Madras on 2<sup>nd</sup> September 2021.

The speaker discussed on the significance of being self motivated and emphasised that it is the path that leads to success, much beyond the knowledge in ones own field. He begun his session with numerous real time case studies, that revealed the practical scenario of daily life. The characters in those scenarios were the drivers that installed great motivation, encouragement and enthusiasm in our activities. We had around overwhelming 102 participants for the event. Faculty and students participated in the live discussion. Lot of questions on self motivation, real time issues, work place stresses and career prospects were posted before and after the sessions for which the speaker answered very patiently and enthusiastically.

The webinar was an enjoyable session that elevated all the people, made them feel very light and stress free after a tiresome day's work. The webinar overall is a grand success.
