Workshop Details:

1. **Resource Person** : **Dr.C.U.Om Kumar & Mr.K.P.K Devan**
2. **Target Audience** : **II,III and IV year IT**
3. **Venue** : **OnlineMode**
4. **Date & Time** : **31st Jan 2022, 10:30 AM**

Objectives:

- To provide basic understanding of Flash crowd attacks.
- To help students and faculty members to understand the importance of cyber security.
- To use different deep learning techniques to handle the Flash crowd attacks.

The Department of Information Technology organized a workshop on Cyber Security through Deep Learning on 31st January 2022. Faculty members and students from various Departments actively participated in this workshop and got benefited from the programme.

The day started with a prayer song by Ms.S.Aishwarya,Executive Member AIT followed by a warm welcome by Mr.Ganesh.S, Final year, President of AIT. The introduction of Mr.K.P.K.Devan,Chief Guest was given by Ms. P.Vaishnavi,VicePresident of AIT and introduction of ChiefGuest Dr.C.U.OmKumar,Assistant

Professor,SRM Easwari Engineering College was given by Ms.Deekshitha.M, General Secretary of AIT.

A short note on the event was presented by Dr.V.Vidhya, Head of the Department, Information Technology. She motivated the students by giving them a brief introduction about the importance of Cyber Security in Real time Projects through Deep Learning.

Then Chiefguest Dr.OmKumar started the lecture On Cyber Security. He started with the explanation of the concept of flash events. What is flash event , how does flash crowd attacks takes place and he detailed the implication of flash attack. Then he emphasized the importance of cyber security in overcoming flash attacks.

He explained about the proliferation of IoT devices causing Dynamic cloud outages due to Distributed Denial of Service Attack(DDoS). He was mentioning the statistics of the number of security violations and the number of records accessed through these breaches that are likely to double in future.

Later, he was explaining the Taxonomy of Botnet techniques and he covered topics like Honeynet based system and intrusion detection systems. Some recent botnets he mentioned namely IRC, P2P etc..

He was demonstrating about how Deep learning technique used autoencoder to analyse the flash crowd attacks. Autoencoder's types and sparse autoencoder and its procedural function was explained in depth.

Then he presented the UCI repository for detection whose traffics were being recorded. He lectured about performance analysis of adaptive filter, and variational encoders. He presented the entire code from importing data sets to fit model , this gave an easy understanding for the students.

Finally, he ended the session with the question answer session.Many participants, including students and faculties, actively participated in the doubts session. The participants got benefited from it.

Dr.VM.Sivagami ,Associate professor, Information Technology , Coordinator of AIT , presented the E-memento to Dr.C.U Om Kumar and Mr.K.P.K Devan in the form of gratification for delivering an informative lecture to the students. The Workshop came to an end with the Vote of thanks by Mr.Sanjiv.TS, Executive member AIT.

The links for submitting the feedback online was shared for collecting the students and faculty feedbacks. The E-certificates to all the participants and the speakers were sent to their respective email Ids.

Outcomes:

- Exposed to the basics of the Flash Events and its associated attacks.
- Demonstrated the importance of Cyber security in overcoming Flash crowd attacks through Deep learning Techniques .
- Motivated students to know the different job prospective in the field and guided them to learn about the field.
- Created awareness among faculty members and students on how to be cautious against online cyber attacks.
- Illustrated different types of Auto encoders, their functionalities in depth.

29 January 2022

To

Mr.K.P.K.Devan

Associate Professor,

SRM Easwari Engineering College , Chennai

Dear Sir,

   Subject: Invitation – Chief Guest for Online Workshop on "Cyber Security through Deep Learning"- reg.

   At the outset ,we would like to thank you for your graceful acceptance of our invitation to deliver Special Talk on "Cyber Security through Deep Learning " on 31st January 2022, 10.30 AM onwards.

   Department of IT engages in several activities like Workshops, Expert Lectures, Symposia and Industrial visits aimed to benefit our students and faculty members. These activities equip them to sharpen their technical skills and create awareness & bonding among our students.

   Department of IT looks forward to your presence amongst our faculty members and students for sharing your valuable thoughts and advice on the above topic which will definitely enrich their knowledge.

   We thank you once again for accepting our invitation. We are eagerly awaiting for your interaction among our students and our faculty members with your expertise.

Thank you.

Yours sincerely,
