## **Report on the Event**

### **About the program:**

A five day faculty development programme on Operation and Programming of Industrial Robot was conducted in the department of mechanical engineering. It is aimed to furnish the knowledge on programming and operation of the six axis robot, which enables the trainees to work under industrial environment. The target audience was internal faculty members and technical personnel who can share the knowledge to the future prospects. Total numbers of participants were limited to 20 members.

### **DAY – 01:**

#### **Session:01**

A five day faculty development programme on Operation and Programming of Industrial Robot was inaugurated by Dr. R. Ramesh Dean Academics, along with Dr. S. Ramesh Babu, HOD/MECH and Dr. M. Mohandass AHOD/MECH & Convener of this FDP are also addressed the participants.

Followed by Dr.K.S.Badrinathan has delivered the lecture on introduction to robots. To impart basic ideas on robots and its components used in robot development.

#### **Session: 02**

Industrial robot configurations and specifications of Mitsubishi 6 DOF was delivered by Mr. M. Arulkumar, Assistant Professor, Department of Mechanical Engineering.

#### **Session: 03**

Mr. Joe Johnson Assistant Professor, Department of Mechanical Engineering teaches the basics about robot operation using teach pendant hand on session through Mitsubishi 6 DOF robot.

## **Day 02:**

### **Session: 04**

Topic of Transformation matrix and forward & inverse kinematics was delivered by Mr. A. Kumaraswamy Assistant Professor, Department of Mechanical Engineering.

### **Session: 05**

Hand on Session through robot analyzer for robot programming delivered by Mr. Joe Johnson Assistant Professor, Department of Mechanical Engineering. Followed by introduction to RT-ToolBox3 concept of offline/online/simulation through power point presentation.

## **Day: 03, 04 & 05**

Hands on Sessions on the following topics were handled by Dr. M. Mohandass Assistant HOD/Associate Professor, and Mr. Joe Johnson, Assistant professor, Department of Mechanical Engineering.

- ❖ Introduction to MELFA programming language and commands.
- ❖ Simulated robot programming and operations
- ❖ Programming using linear interpolation
- ❖ Programming using circular interpolation
- ❖ Conditional loop IF statement
- ❖ Conditional loop FOR statement
- ❖ Programming for pick place using TCP
- ❖ Programming for pick place using pallet commands.

Valedictory of five day faculty development programme on Operation and Programming of Industrial Robot was facilitated by Dr. K.S. Badrianthan Dean Educational Development along with Dr. S. Ramesh Babu, HOD/MECH and Dr. M. Mohandass AHOD/MECH & Convener of this FDP are also presented. Followed by participation certificate distributed through Mitsubishi 6 DOF robot.
