Three Day Workshop on Boundary Layer Theory

Date
22nd, 23rd, 24th
September, 2021

Time
FN: 10.00 Hrs to 11.30 Hrs (IST)
AN: 01.30 Hrs to 03.00 Hrs (IST)

Resource Persons

Dr. K. Pitchandi
Professor, Department of Mechanical Engineering,
Controller of Examination ,
SVCE

Dr. Saikishan Suryanarayanan
Research Associate & Lecturer
Department of Aerospace Engg
and Engineering Mechanics,
University of Texas , USA

Dr. S. Saravanan
Professor ,
Department of Mechanical Engineering,
SVCE

Mr. S. Jai Ganesh
Assistant Professor,
Department of Chemical Engineering,
SVCE

ABOUT SVCE

Sri Venkateswara College of Engineering (SVCE) was started in the year 1985, with three primary departments. Ever since, it has grown into a premier Institution imparting knowledge and excellence through academic, research and infrastructural developments. SVCE presently offers eleven UG and twelve PG courses in various engineering disciplines. Twelve departments have been recognized as Research Centers by Anna University, Chennai for pursuing Ph.D. programmes. In 2016 SVCE obtained an Autonomous status from UGC. The college is located amidst many renowned industries like Hyundai, TAFE, Nokia, Samsung, Dell and Saint-Gobain to mention a few.

ABOUT THE DEPARTMENT

The Department of Mechanical Engineering started its successful journey in 1985 and has been accredited by the NBA since 1998. It has grown to be a Research Centre approved by Anna University, as well. The Department of Mechanical offers UG in Mechanical Engineering and PG in Mechatronics and Industrial Automation and is supplemented by well-equipped laboratories, reputed research supervisors and dedicated faculty members. The department has the privilege to house the following research cells namely FRP Cell, Multi-Disciplinary Bio-Fuel Research Cell, Tribology cell, Composite fabrication cell, welding research cell, 3D printing and robotic cell which are used extensively for research and consultancy projects. The department has MOU's with many industries to jointly work on research and technological development.

OUTCOME

After attending this workshop, participant will have a good understanding of Introduction to Fluid Mechanics, Boundary Layer Theory and Computational Fluid Dynamics

WHO CAN ATTEND

❖ Sessions Open to All Faculty/Researcher/Students/Industrial Practitioner from Colleges/Universities/Organizations

PROGRAMME SCHEDULE

Day	Session	Title	Speaker
22/9/21	FN	Challenges & Thrill of Fluid Mechanics	Dr. Saikishan Suryanarayanan
	AN	Introduction to Boundary Layer Theory	Dr. K. Pitchandi
23/9/21	FN	Demystifying Transition and Turbulence	Dr. Saikishan Suryanarayanan
	AN	Thermodynamics of Boundary Layer	Dr. S. Saravanan
24/9/21	FN	Novel Strategies for boundary Layer Transition Mitigation	Dr. Saikishan Suryanarayanan
	AN	Introduction to Computational Fluid Dynamics (CFD)	Mr. S. Jai Ganesh

Resource Person Details

1. Dr. Saikishan Suryanarayanan is a research associate and lecturer at the Department of Aerospace Engineering and Engineering Mechanics at the University of Texas at Austin, USA.

He is a proud alumnus of the Mechanical Engineering Department at SVCE (2003-2007 batch). He has a masters degree in Mechanical Engineering from Texas A&M University, College Station, Texas, USA, and a Ph.D. in Engineering Mechanics from the Jawaharlal Nehru Centre for Advanced Scientific Research (JNCASR), Bangalore, India. His master's thesis at the turbomachinery laboratory at Texas A&M was on leakage flow through labyrinth seals. His doctoral research with the late Professor Roddam Narasimha was on the application of vortex methods and statistical mechanics to study turbulent mixing layers. He has been at the University of Texas at Austin since 2016, and studies transitional and turbulent boundary layers using direct numerical simulations. He is a co-investigator on research projects on boundary layer control sponsored by the Air Force Office of Scientific Research (AFOSR) and National Science Foundation (NSF). Dr. Suryanarayanan teaches courses on fluid mechanics, dynamics, compressible flow, applied aerodynamics and computational fluid dynamics at the University of Texas.

2. Dr.K.Pitchandi - is currently working as Professor & Controller of Examinations at Sri Venkateswara college of Engineering Sriperumbudur. Dr.K.Pitchandi is having 22 years of teaching and 4 years of Industrial experience. He has a comprehensive knowledge about thermal related subjects in general and thermodynamics in particular. He is very good at Mathematical modelling of various thermal systems for their optimization.

3. Dr.S.Saravanan - Dr. Saravanan received his PhD in Mechanical Engineering from Anna University, Chennai, Tamilnadu, India in 2013. He is currently working in Department of Mechanical Engineering, Sri Venkateswara College of Engineering, Sriperumbudur, Tamilnadu, India. He has done his doctorate in IC Engines and his research interests are in the areas of alternative fuels, combustion, heat transfer systems, thermodynamics, and renewable energy sources. He has completed three testing projects and one funded project. He has published 67 papers in international journals and 23 papers in national and international conference proceedings. He has an h index of 27 for his research publications.

4. Mr.S.Jai Ganesh - He is working as Assistant Professor from 2015 at Department of Chemical Engineering, Sri Venkateswara College of Engineering, Sriperumbudur, India. His educational qualification includes M.Tech in Computational Fluid Dynamics from University of Petroleum and Energy Studies (UPES), Dehradun, India, by 2012. And his B.Tech in Chemical Engineering from Madras University, Chennai, India by 2004. He has work experience of 6 years in chemical process industries on operating different process equipment at different stages prior to 2015. His academic contribution includes publication in one journal international journal of ASCE, and 2 papers as international conference proceedings. And he has received mentorship from INAE Fellow, Dr. J.R.Rao, CLRI, Chennai, through Mentorship program of INAE. His CFD contribution involved in consultancy work to Thirumalai Chemical limited have been appreciated.

Program Summary

Objective- To throw a light on concept of Boundary Layer theory and generate a spark on budding engineers to know about Fluid dynamics, Computational Fluid dynamics and its corresponding applications in various fields.

Benefits: The participants will get a thorough knowledge about fundamentals of Boundary layer theory and will get to know how those basics are prevailing in various applications. They will also get an idea about the recent research and developments in the field of CFD to enhance widen their knowledge about the same.

Outcome: After attending this workshop, participant will have a good understanding of Introduction to Fluid Mechanics, Boundary Layer Theory and Computational Fluid Dynamics

Certificate of Participation

This is to certify that

Jegan B ,
Velammal college of engineering and Technology

has successfully participated in the Three day Workshop on **"Boundary Layer Theory"**, Organised by the **Department of Mechanical Engineering, Sri Venkateswara College of Engineering, Sriperumbudur** on 22nd, 23rd, 24th of September, 2021.
