SRI VENKATESWARA COLLEGE OF ENGINEERING
**DEPARTMENT OF INFORMATION TECHNOLOGY**

Five Days Online Workshop on "Web Design for Everyone".
A Report

The Department of Information Technology organized a 5 days **Online Workshop on " Web Design for Everyone" from 31st Jan to 4th Feb 2022.** The event started with a prayer song rendered by N. R. Gayathiri, III Year, INT followed by the welcome address, by Dr.V.Vidhya, HOD/INT. She addressed the gathering by giving an introductory note about the workshop and emphasized the importance of the Web design in all the fields. She motivated the participants and highlighted the purpose of organizing such a workshop.

On Day 1 (31/01/2022), the session on "Web page Design using HTML5" was handled by Ms. A. Indumathi, Assistant Professor, Department of Information Technology. The session started with HTML5 basic elements with its attributes. She has shown the demo with all the HTML5 elements such as Audio, Video, etc. in the browser.

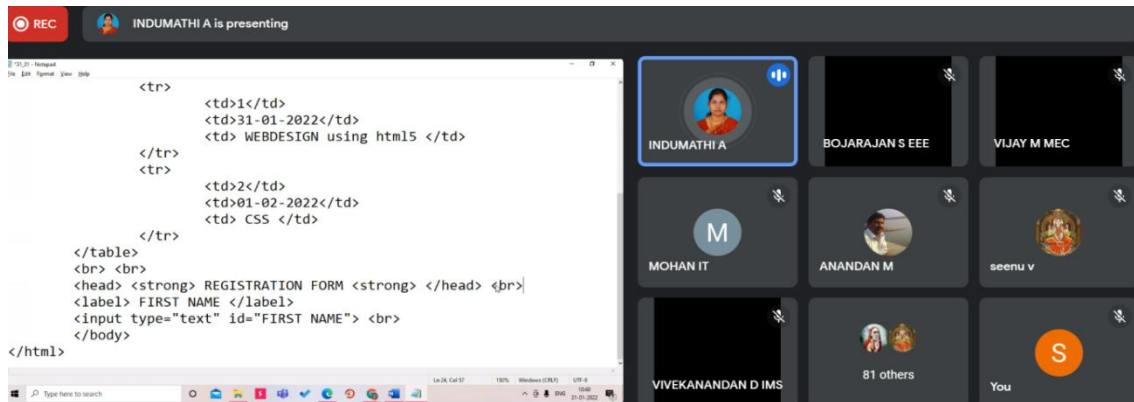

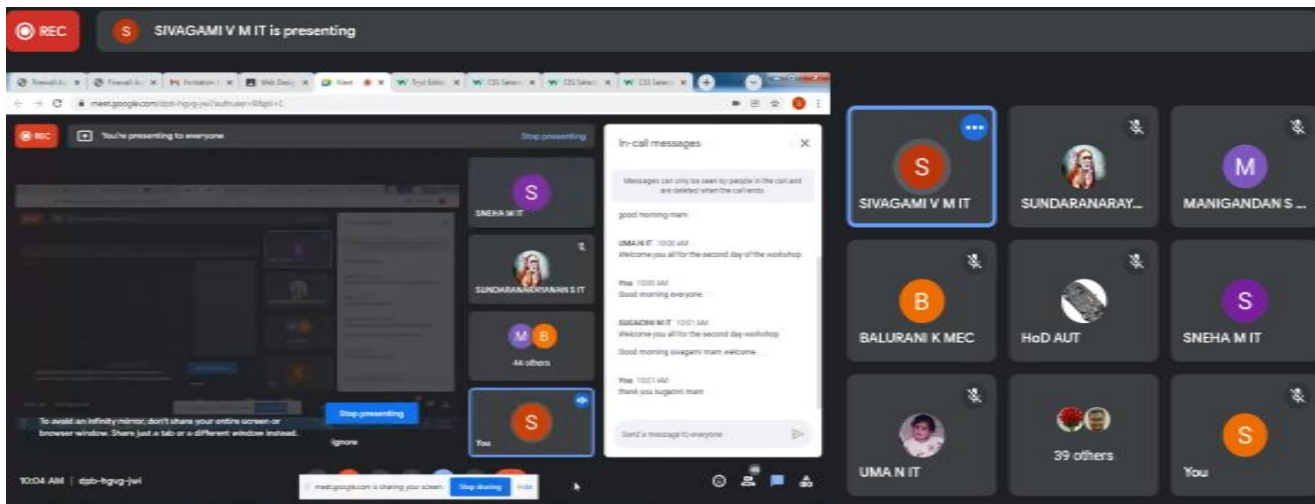

Speaker explaining the HTML tags

Speaker demonstrating the creation of web page

On Day 2 (1/02/2022), the session was handled by Dr. V. M. Sivagami, Associate Professor, Department of Information Technology. She delivered a talk on "Web page Design using CSS3". The session started with what is styling in web page. She explained about how CSS3 makes a designer's work easier to spend less time hacking their CSS and HTML code to work in browser and more time crafting their design and also how CSS controls the fonts, text, colors, backgrounds, margins, and layout with a demo.

Speaker explaining about the editor to be used for CSS

On Day 3 (2/02/2022), Ms. P. Meenakshi, Assistant Professor, Department of Information Technology handled the session on "Dynamic web pages using Javascript". The session started with an introduction of JavaScript along with HTML and CSS to make the web page dynamic. She explained about how client-side(browser) processes the web page using JavaScript. And also she demonstrated the techniques to create dynamic, interactive web applications, as well as the language-specific details needed to implement in JavaScript.
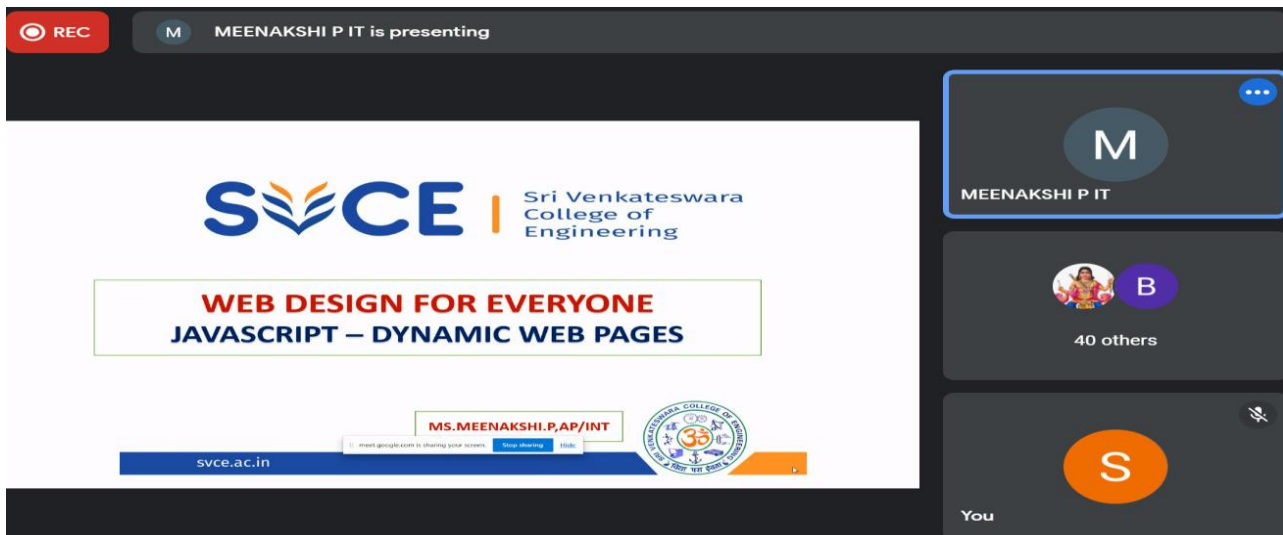

Introduction about Javascript by the Speaker
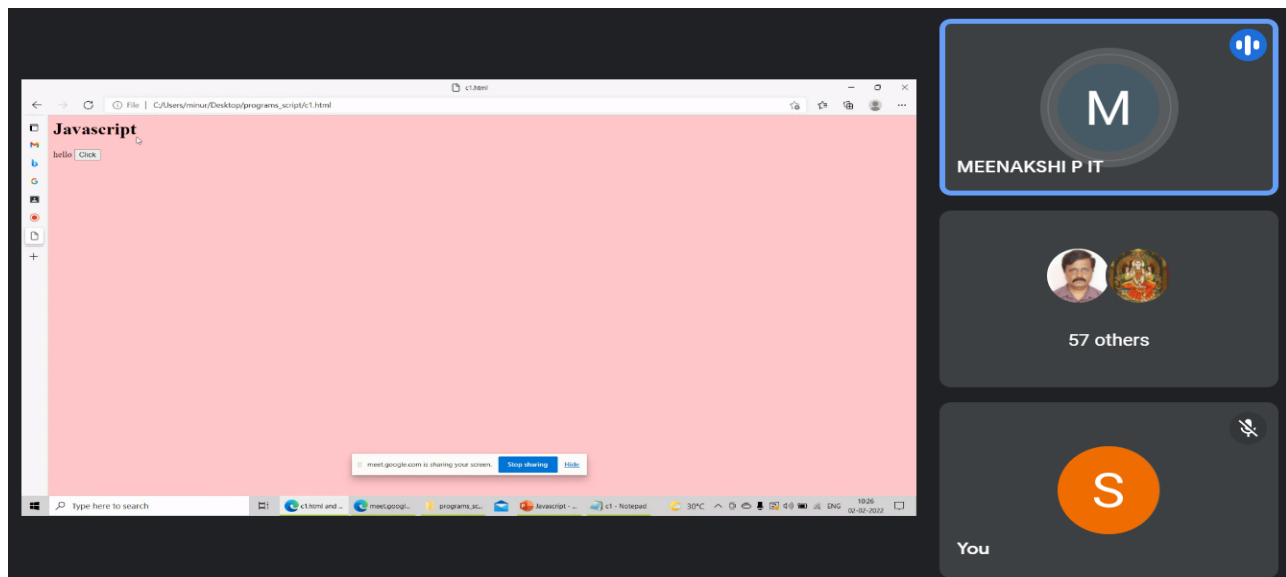

Demo on dynamic web page creation

On Day 4 (03/02/2022), the Coordinator of the workshop Ms. N. Uma, Assistant Professor, Department of Information Technology, Sri Venkateswara College of Engineering handled the session. The session was about "Website design using NodeJS". The speaker starts with the differences between client side and server side programming. She explored the design choices that make Node.js unique, how NodeJS changes the way, applications are built and how systems of applications work most effectively in this server engine. The Speaker explained the creation of Node.js modules and demonstrates the website creation using it.
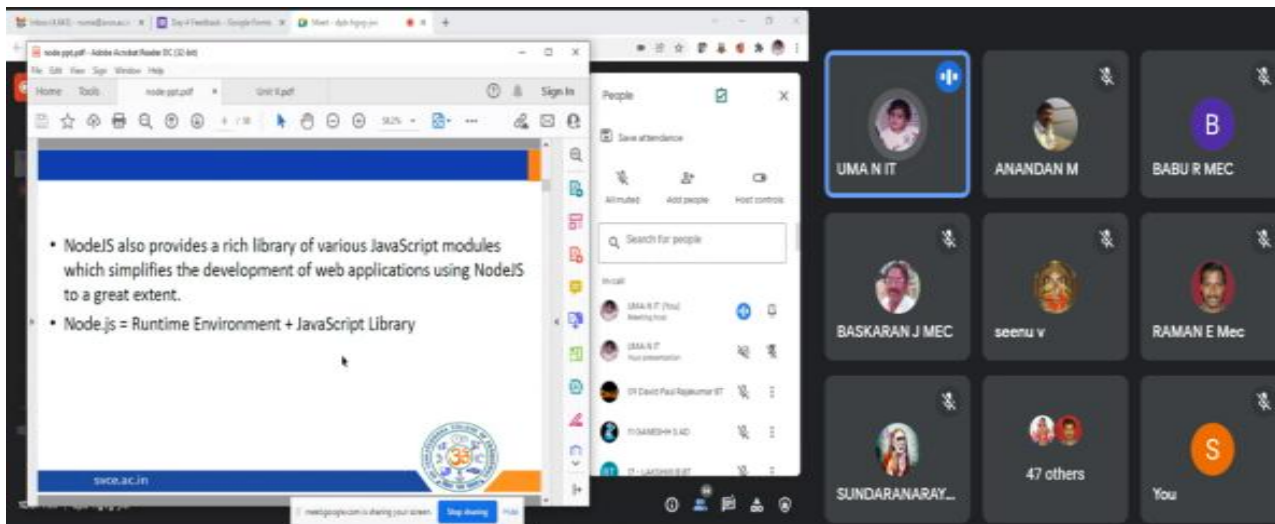

introduction about the NodeJS by the Speaker
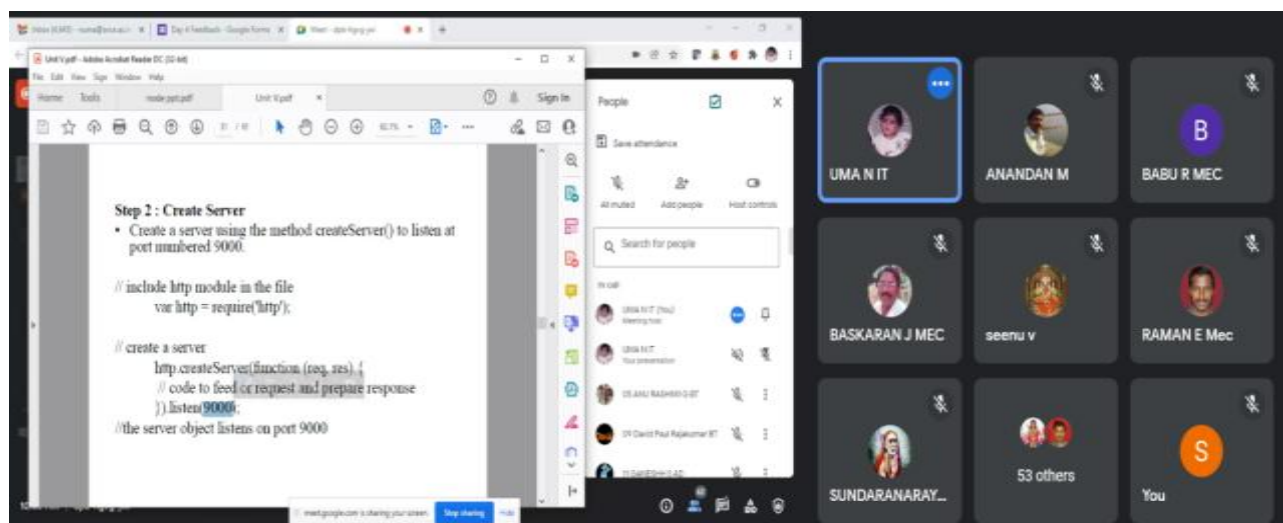

Speaker explaining the steps for generating the server response

On Day 5 (04/02/2022), the session was handled by Mr. V. Ranjith, Assistant Professor, Department of Information Technology, Sri Venkateswara College of Engineering. The session was about "Website design using PHP with Backend Connectivity". The speaker describes the major elements of the PHP & MySQL and explained why PHP is the best for web development. Also he explained about different ways of connecting MySQL through PHP, accessing the data, connecting the SQL Server and other data sources.

The Valedictory function was presided over by Dr. V. Vidhya, HOD/INT. Ms. M. Sugacini, Assistant Professor, Workshop Coordinator summarized the program and Ms. N. Uma, Assistant Professor, Workshop Coordinator delivered the vote of thanks.

HoD/INT presided the valedictory function

Before the end of the programme, few participants came forward and very well appreciated the conduct of the programme and the benefits acquired from the Web design for everyone workshop. They said that the lecture sessions and the practical sessions were very much useful and it was a good exposure for them to develop websites by their own.
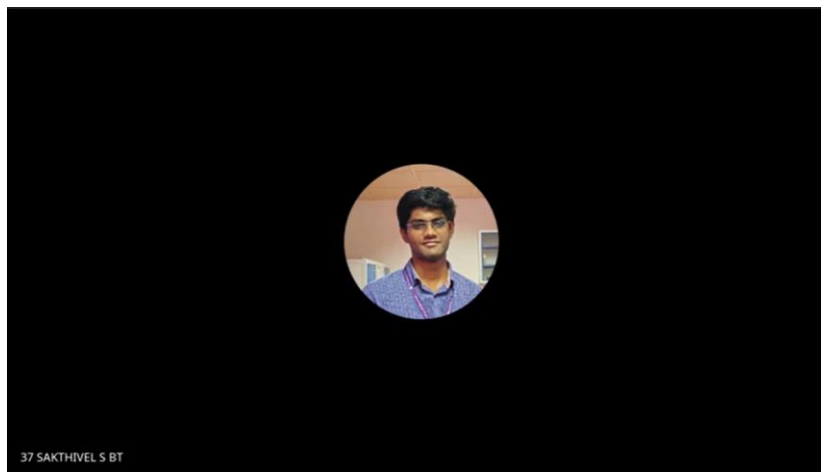

Participant giving his valuable feedback

As a concluding note we express our heartfelt thanks to the Management and the Principal for their great support for the conduct of the programme.

Outcome of the Programme:

1. Discover the skills of how web browsers work and how to style the content to reflect our vision using CSS
2. Analyze the technical aspects of web design and development services
3. Build a working knowledge of the technologies used in web development.
4. Familiarize with graphic design principles that relate to web design and learn how to implement theories into practice
5. Develop skills in analyzing the usability of a web site.
