ABOUT THE DEPARTMENT

The Department of Computer Science and Engineering was established in the year 1985. Over the past few years, the department has acquired national and international importance. This has been achieved by the collective and responsive effort of the faculty, the supporting staff and the students. The department is well equipped with excellent computing facilities, and has highly qualified faculty specialized in areas like Cloud Computing, Artificial Intelligence, Machine Learning, Data Analytics, Cyber Security, Networking, Data Mining etc.

Programmes offered:

- B.E. Computer Science and Engineering
- B.Tech. Artificial Intelligence and Data Science
- M.E. Computer Science and Engineering
- Ph.D. Computer Science and Engineering

ABOUT THE DEPARTMENT

VISION

To excel in providing education and research in the field of computer science and engineering in the cutting edge technology so as to produce competence professional at global level.

MISSION

- Competent and trained faculty enriching the aptitude of the student to generate innovative and effective problem solving skills with professionalism
- Providing strong research and state of the art facility to the students to face dynamic challenges of industry and society
- Educating the students to be successful, ethical and lifelong learners

MESSAGE FROM HOD

Dr. R. Anitha

I would like to express my sincere appreciation for all the tremendous efforts put forth by the newsletter team in the month of November 2022. This Newsletter 'CSE - BYTES' is a forum to expose the events, happenings, and achievements in the department as well as provide a platform to exhibit the talents of the budding engineers and the faculty as well.

This newsletter will definitely create an impact in the minds of readers by providing a wider visibility and new dimension to the learning community. I hope that this culture of releasing newsletter will continue forever with the support from both the students and the faculty.

STUDENT ACHIEVEMENTS

STUDENT PARTICIPATION

Muralidharan S, I Year CSE B Section Student, was a FINALIST for presenting a paper titled “IoT-based Air Pollution Monitoring System” under the category Idea-O-Lite in The Second Edition of iCUBE – A National Level InterCollegiate Technical Event, organized by Students’ Council in association with SVCE Science Club of SVCE held between 1.11.22 and 18.11.22.

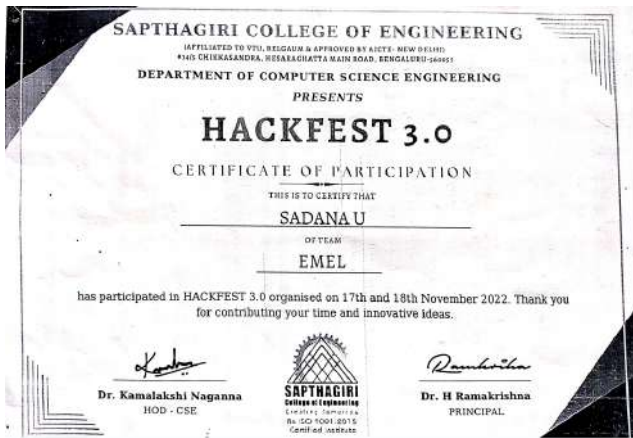

Rahul G, III yr AD, Department of Computer Science and Engineering, participated and won a cash prize of Rs. 3000/- in SIRIONLABS HACKFEST organized by HackerEarth Technologies Private Limited on 04/11/2022.

Priyanka A, Rahul G, III yr AD, Department of Computer Science and Engineering participated in Icube Hackathon (Interdisciplinary team) - conducted by Students council in association with SVCE Science Club - A national level intercollegiate technical event , Sriperumbudur on 18th November 2022

STUDENT ACHIEVEMENTS

HACKATHON

Sadana U, Shivaneer Ramesh, Suriya S S, Shri Rajamanikandan V, IV year, Department of Computer Science and Engineering, has participated in HACKFEST 3.0 organized by Saphthagiri College of Engineering, Bengaluru on 17/11/2022 and 18/11/2022.

PLACEMENT ACTIVITIES

PLACEMENT TRAINING

OBJECTIVE:

- To create awareness about "career planning" and "career mapping" among the students.
- To train the students on "Personality development".
- To organize Various Training Programmes to train the students in the areas of Quantitative Aptitude, Logical reasoning and Verbal reasoning.

TRAINING PROVIDED BY: “SPRINGBOARDS”

PARTICIPANTS: Second year students of CS and AD

DATE: 28.11.2022 to 03.12.2022

KNOW - I

KNOW-I club was inaugurated for the academic year 2022-2023 with a technical talk on "**Machine Learning - An Introduction and Industry Perspective**" given by Sudarsan Santhiappan, Chief Scientific Officer, Buddi AI, on 9th November 2022 at Video hall, SVCE.

KNOW-I research forum aims at imparting and enhancing knowledge in the field of Artificial Intelligence, Machine learning, Deep learning, and Computer vision for the students of Sri Venkateswara College of Engineering. One of the priorities is to encourage students to get involved in research-based activities. To achieve this, the forum has an exuberant team consisting of faculty and students to organize competitions, workshops, project presentations, hackathons etc. The club acts as a platform for the students, faculty, and industry experts to share their experiences and work collaboratively to provide intelligent solutions for real-world problems.

CYBER HUB inauguration for the academic year of 2022-2023 with a technical talks on "Basics of Cyber Security" given by **Mr. Rakesh Elamaran**, Security Analysts in Temenos, and "Intricacies of Blockchain Security" given by **Mr. Gopalsamy Rajendran**, Senior Security Engineer in Accubits Technologies Inc., conducted on 10th November 2022 in function hall at 9:30 am, SVCE.

SVCE Cyber Hub aims to bits of helping fellow students in order to foster their creativity and overall well-being. It supports the students who are interested in and committed to pursuing careers in the field of cyber security and networking.

The students will be able to

- understand the need for cyber security and how it can shape the future.
- gain the detailed knowledge of Blockchain Technology.

EVENTS ORGANIZED

Dr. P. Vinothiyalakshmi, ASP/CSE, Dr P Geetha, AP/CSE, Ms. R. K. Kapilavani, AP/CSE, has organized 3-Day workshop on Machine Learning by the Department of Computer Science and Engineering , Sri Venkateswara College of Engineering from 14/11/22 to 16/11/22.

Objectives:

- To develop the skills required for Machine Learning Technologies with the use of Python to analyze data, create beautiful visualizations, and problem solving using powerful machine learning algorithms.
- To perform machine-learning tasks with use of R which includes image recognition, speech recognition, natural language processing, and sentiment analysis.
- To visualize the data with R considered as the best choice as it allows rapid prototyping and works with the datasets to design machine-learning models.
- To implement the applications and project building using Machine Learning algorithms.

Outcomes:

- The attendees learned about the new software tools (R and Python with ML) that is now being used by IT organizations.
- Participants were able to expand their understanding of the coding and its application in various domains.
- Participants were able to strengthen their programming abilities in preparation for placements with make use of implementing Projects.
- The students learned the skills required to participate in hackathons, coding events, conferences, and other events.
- On learning these Software tools (R and Python) with ML, the students have developed the prototype on the pressing problems of the society.

Participants count: 30 students, SVCE (II and III year)

Speakers:

Day 1 - ML with Python, Ms R K KapilaVani, AP / CSE

Day 2 - ML with R, Dr P Geetha, AP / CSE

Objective:

- To develop the skills required for Robotics and its desired Technologies and to create beautiful visualizations of new robots using powerful Artificial Intelligence algorithms.
- To help protect the confidentiality, integrity, and availability of computer systems, networks and data, against cyber-attacks or unauthorized access.
- To visualize the concept of design in Robotics with various state-of-the-art electronic devices.
- To implement the applications using Cyber Security algorithms.

Outcomes:

- The participants learned the new tools for Robotics design that is now being used by IT organizations.
- Participants were able to expand their understanding of Robotics in scientific fields and its application in various domains.

ACM - STUDENT CHAPTER, SVCE

Association of Computing Machinery (ACM)

Association of Computing Machinery (ACM) was inaugurated for the academic year of 2022-2023 with a guest lecture on "Role of Engineers" given by Dr.V.Vidhya, Professor/HoD, Department of Information technology, SVCE conducted on 07th November 2022 in Function hall, SVCE.

ACM is an international organization whose aim is "Advancing computing as a science and profession". It was set up to facilitate all activities which aim at spreading quality computing education by setting up learning groups, organizing seminars, conducting workshops, facilitating contests and so on.

Students will be able to

- know the roles and responsibilities of Engineers
- understand the emerging technologies
