8.1.2 There will be three formative assessments. Hence Each student will have three marks FA1, FA2 and FA3 for a particular course. Total of all these three FAs would be scaled down to 40. The mark so obtained would be rounded to nearest integer. This is the FA mark of a particular student in a particular subject. (This implies equal weightage to all the three formative assessments). The final FA will be out of 40.

8.2 Theory Courses with laboratory component

The award of marks for formative assessment shall be based on three Formative assessments during the semester. Formative assessments for theory should contain the following:

1. Written test for 90 minutes and will be conducted for maximum of 50 marks, carrying 70% weightage.

8.2.3 There will be three formative assessments. Hence Each student will have three marks FA1, FA2 and FA3 for a particular course. Total of all these three FAs would be scaled down to 50. The mark so obtained would be rounded to nearest integer. This is the FA mark of a particular student in a particular subject. (This implies equal weightage to all the three formative assessments). The final FA will be out of 50. Please refer section 9.1 for the scheme of evaluation.

8.3 Practical Courses

8.3.1 The maximum marks for formative assessment shall be 60% in case of practical courses. Every practical exercise / experiment shall be evaluated based on conduct of experiment / exercise, observations / records maintained and viva-voce. There shall be at least one model test.

8.3.2 The criteria for arriving at the Internal Assessment marks of 60 is as follows: Maximum of 40 marks shall be awarded for successful completion of all the prescribed exercises / experiments done in the Laboratory and a model test will be conducted and the mark will be scaled down to 20. The total mark, rounded to the nearest integer, shall be out of 60.

8.4 Absence in Formative assessments

If a student would not be in a position to complete any one of the FA as per the schedule, due to sports/medical reasons or any other personal reasons, he/she should get the permission from the head of the department to write the retest for the same course(s). Even if it is not possible for a student to complete any of the FA components, it will be considered as absent and zero mark will be entered into the portal for that component.

17. AWARD OF LETTER GRADES

17.1 All assessments of a course will be evaluated on absolute marks basis. However, for the purpose of reporting the performance of a candidate, letter grades, each carrying certain number of points, will be awarded as per the range of total marks (out of 100) obtained by the candidate in each subject as detailed below:

17.2. A relative grading is going to be adopted for fixing the range of marks for various letter grades. The same has been given in the following table.

Letter grade	Grade Points	Marks Range	
		Lower	Higher
O (Outstanding)	10	University provided the software for allocation of grades. This relative grading method normalizes the results of those students who secure the total marks greater than or equal to 50, using the BOX-COX transformation method and computes the grade range for each course separately and awards the grade to each student. For a given course, if the students' strength is greater than 30, the relative grading method shall be adopted. However, for the theory or theory cum practical courses in which the students' strength is less than 30 then the fixed grading shall be followed with the grade range as specified below. For practical courses, fixed grading will be used irrespective of student strength.	
A+ (Excellent)	9		
A (Very Good)	8		
B+ (Good)	7		
B (Average)	6		
C (Satisfactory)	5		
U	0	< 50%	
WD	0	NA	
AB	0	NA	

O	A+	A	B+	B	C	U
91-100	81-90	71-80	61-70	56-60	50-55	<50

A student is deemed to have passed and acquired the corresponding credits in a particular course if he/she obtains any one of the following grades: "O", "A+", "A", "B+", "B", "C". "U" denotes that the student has failed to pass in that course. "WD" and "AB" denote **withdrawal** from the exam and absent for the particular course, respectively. The grades U, WD and AB will figure both in Marks Sheet as well as in Result Sheet. In both cases the student has to reappear for the Summative Examinations. For the grade W and U, the attendance requirement need not to be satisfied.

- 17.3. For the Co-curricular activities such as National Cadet Corps (NCC)/ National Service Scheme (NSS) / NSO / YRC, a satisfactory / not satisfactory grading will appear in the mark sheet. Every student shall put in a minimum of 80% attendance in the training and attend the camp compulsorily. The training and camp shall be completed during the first year of the programme. However, for valid reasons, the Head of the Institution may permit a student to complete this requirement in the second year. **A satisfactory grade in the above co-curricular activities is compulsory for the award of degree.**

- 17.4. If a student obtains a grade O, A+, A, B+, B, and C in a Value added course, the course shall figure in the Mark sheet. However, value added courses in which the grade is U **will not figure in the mark sheet.** After results are declared, Grade Sheets will be issued to each student.

GPA for a semester is the ratio of the sum of the products of the number of credits for courses acquired and the corresponding points to the sum of the number of credits for the courses acquired in the semester.

$$\text{GPA} = \frac{\text{Sum of (Credits Earned} \times \text{Grade Points)}}{\text{(Sum of Credits Earned)}}$$

CGPA will be calculated in a similar manner, considering all the courses registered from first semester. 'U', and 'W' grades will be excluded for calculating GPA and CGPA.

$$CGPA = \frac{\sum_{i=1}^n C_i GP_i}{\sum_{i=1}^n C_i}$$

where C_i - is the Credits assigned to the course GP_i - is the Grade point corresponding to the grade obtained for each Course n - is number of all Courses successfully cleared during the particular semester in the case of GPA and during all the semesters in the case of CGPA. The GPA and CGPA indicate the academic performance of a candidate at the end of a semester and at the end of successive semesters respectively.
