## INAUGRAL REPORT'22

DATE: 21-10-21                                    TIME: 10:30 AM

## OBJECTIVES:

- To give insights about Machine Learning and Artificial Intelligence and their applications in the modern world
- To provide a brief idea on the skills required to become an AI/ML engineer

## ABOUT THE PROGRAMME:

On October 21,2022, the Computer Society of India – SVCE Student Chapter 2022-2023 held its inaugural ceremony. It was attended by our esteemed chief guest, Srinivasan Thanukrishnan ,Glosys Technology Solutions PVT,LTD. The ceremony began with a welcome address presented by Satheesh.R, Chairman of CSI.

The event was then followed by an introductory presentation about the chief guest given by Dr.V.Vidhya, the Student Chapter Counselor of CSI and Head of Department of Information Technology, in which she spoke about her experience and accomplishments and honoured the cherished chief guest with a souvenir. Following that, the honoree, Srinivasan Thanukrishnan, delivered an illuminating and informative speech on "Machine Learning".

He first explained what the term "Machine Learning" meant. Then he went on to explain in detail about the problem-solving questions fromprestigious institutions such as Stanford. Later, he explained the distinction between machine learning and deep learning. He provided us with in-depth knowledge of ML as well as the skills required to become an ML engineer. It was a lively and informative discussion.

Following the speech, the winners of the Paper Propine and Hack-IT competitions were revealed and presented with a certificate and cash awards by the chief guest. The event went off without a hitch. Finally, the CSI 2022-2023 office bearers were honoured with badges presented by Dr.V.Vidhya and Srinivasan Thanukrishnan. Finally, Siddha, Vice Chairman of CSI, delivered the vote of thanks.

## OUTCOME OF THE PROGRAMME:

- The speaker gave the students in-depth knowledge about machine learning and the various processes that go with it like the different supervised algorithms such as Naïve Bayes, Support Vector Machines which can be implemented in real life problems.
- The speaker also gave insights about the necessary skillsets that are required for building projects and also gave an introduction on deep learning and neural networks.
